

Standard CHANNELLOCK Pattern

These Channellock Standard Pattern Pliers do not have the patented tongue and groove Channellock joint. However, they are manufactured with the same precision workmanship and high quality material. Each plier is tested far beyond its intended capacity.

Linemen's Plier—Rounded Nose

Gripping

Channellock Self-gripping Pliers incorporate the new revolutionary, powerful gripping, **Channellock** design. The tongue and groove **Channellock** joint provides a vise-like grip entirely independent of the gripping power of the user's hand. They are made of the highest grade **alloy steel** and are properly heat-treated. Each plier is tested far beyond its intended capacity.

This **No. 407** plier is primarily intended for battery work. The self-gripping feature insures a positive grip on acid corroded and mutilated terminal nuts. Its adjustable feature also makes it indispensable for many other kinds of work. Polished steel finish. Packed in individual cartons.

Net each \$1.45

Length 7". Capacity $\frac{1}{8}"$ to $\frac{1}{4}"$. Weight 7 lbs. per doz. Two adjustments. Knurled handles.

**407 BATTERY
PLIER**

Our **No. 410** is a heavy-duty self-gripping plier which will hold work of any shape with a positive pipe wrench grip. Will exceed a pipe wrench in usefulness because of its light weight and streamlined design. Polished steel finish. Packed in individual cartons.

Net each \$2.25

Length 9 $\frac{1}{2}"$. Capacity $\frac{3}{8}"$ to 1 $\frac{1}{8}"$. Weight 11 lbs. per doz. Four adjustments.

**410 GENERAL
UTILITY PLIER**

The **No. 417** is a heavy-duty plier with a gripping power many times greater than the ordinary slip-joint plier. Polished steel finish. Packed in individual cartons. Its superiority can only be appreciated by actual use.

Net each \$1.70

Length 7". Capacity $\frac{1}{8}"$. Weight 7 lbs. per doz. Three adjustments. Knurled handles.

**417 HEAVY DUTY
GRIPPING PLIER**

The wide range of adjustments of the **No. 420** Pump Plier makes it adaptable to a multitude of uses. The **Channellock** adjustment eliminates wear on the joint bolt and greatly prolongs the life of the tool. Polished steel finish. Packed in individual cartons.

Net each \$2.00

Length 9 $\frac{1}{2}"$. Capacity $\frac{1}{8}"$ to 1 $\frac{1}{8}"$. Weight 9 lbs. per doz. Five adjustments. Knurled handles.

420 PUMP PLIER

This **No. 424** ignition plier incorporates the **Channellock** adjustment feature in order to eliminate wear on the joint bolt and lengthen the life of the tool. A midget plier. Polished steel finish. Packed six in a carton.

Net each \$1.40

Length 4 $\frac{1}{2}"$. Capacity $\frac{1}{2}"$. Weight 16 oz. per doz. Four adjustments.
